

# The Girl Of my Best friend

G                    Em            G                    Em  
The way she walks, the way she talks  
G                    Em            D  
How long can I pretend'  
C                    D                    G    Em  
Oh I can't help it, I'm in love  
C                    D  
With the girl of my best friend

G                    Em            G                    Em  
Her lovely hair, her skin so fair  
G                    Em                    D  
I could go on, never end  
C                    D                    G    Em  
Oh I can't help it, I'm in love  
C                    D                    G  
With the girl of my best friend

C                    D                    G                    Em  
I want to tell her how I love her so  
D                    G  
And hold her in my arms, but then  
C                    D                    G                    Em  
What if she got real mad and told him so'  
A                    D  
I could never face either one again

G                    Em            G                    Em  
The way they kiss, their happiness  
G                    Em                    D  
Will my aching heart ever mend'  
C                    D                    G    Em  
Or will I always be in love  
C                    D                    G                    Em  
With the girl of my best friend  
G                    Em  
Never end  
G                    Em  
Will it ever end  
G                    Em  
Please let it end
